

Initial Research Data Summary of the Dr. Edgar Mitchell
FREE Experienter Research Study
December 1, 2016

The Dr. Edgar Mitchell Foundation for Research into Extraterrestrial Encounters (FREE) is a not for profit co-founded by the late Dr. Edgar Mitchell (Apollo 14 Astronaut), Dr. Rudy Schild (Emeritus Professor of Astrophysics at Harvard University), Australian researcher Mary Rodwell and Rey Hernandez, an attorney and ex-university professor. The Executive Director of FREE is Dr. Rudy Schild. Shortly before his death, Dr. Edgar Mitchell, in a video recording, expressly gave his permission to allow FREE to be named for his legacy.

FREE has a 12 member Board of Directors comprised of Ph.D. Physicists, Ph.D. Scientists, Ph.D. Psychologists, Ph.D. Neuroscientists and lay researchers. FREE is researching “What is Consciousness”, what is the nature of our multi-dimensional reality, by undertaking the **WORLD'S FIRST COMPREHENSIVE ACADEMIC MULTILINGUAL RESEARCH STUDY** on Individuals having UFO related Contact with Non Human Intelligent Being (NHIB) and its associated paranormal activity, from a grounded and rigorous scientific foundation-- **THE FREE EXPERIENCER RESEARCH STUDY**.

The Co-Chairs of this research study are Dr. Jon Klimo, a retired Professor of Psychology and one of the world’s leading academics on the “Paranormal” and Dr. Bob Davis, a retired Professor of Neuroscience at the State University of New York. Our primary focus will be on scientific investigation, through 3 lengthy surveys and a formal interview, of individuals who have had UFO related contact experiences with non human intelligence. Eventually, we want to compare this UFO related contact group with individuals that have had other types of “paranormal” contact experiences through the following “Contact Modalities”: Near Death Experiences contact, Out of Body Experiences contact, Shamanic

Hallucinogenic contact, Mystical Meditation contact, Channeling, Lucid Dreaming Contact, Remote Viewing contact, and other types of human encounters with non-human intelligence, and related paranormal contact experiences.

The majority of our FREE Board of Directors, including the late Dr. Edgar Mitchell, one of the world's leading experts on "The Physics of Consciousness", Dr. Rudy Schild, a Harvard University Professor and Editor of the Journal of Cosmology, and Dr. Claude Swanson, a Ph.D. in Physics from Princeton University and author of "The Synchronized Universe", Dr. Bob Davis, a retired professor of Neuroscience, and Dr. Jon Klimo, a retired professor of Psychology and one of the world's leading academic experts on the "paranormal", hypothesize that all of these diverse "Paranormal Contact Modalities" (NDEs, OBEs, UFO visitations, Remote Viewing, ESP, Channeling, Spirit Interactions, etc) might be interconnected through an advanced physics theory, the Quantum Hologram Theory of Physics and Consciousness, as developed by the late Dr. Edgar Mitchell and Harvard Astrophysicist Dr. Rudy Schild. All of these so-called "paranormal" contact phenomena should not be studied separately but as one whole interrelated phenomenon. Unfortunately, today, almost all researchers are studying these contact modalities as separate and distinct from each other.

METHODOLOGY: Our research study involves two comprehensive quantitative surveys, Phase 1 and Phase 2, totaling more than 600 questions and 2 qualitative research instruments, Phase 3 and 4. Phase 3 is a qualitative instrument involving written responses to 70 open ended questions. Phase 3 is meant for major experiencers with multiple contact events. Phase 4 involves a multi-day formal structured interview that will be audio recorded and transcribed. We expect to interview 200 of the major experiencers from the more than 3,000 that have participated. All 4 phases will be completely anonymous and based solely on conscious explicit memories and not lucid dreams or hypnotic regressions.

LANGUAGES: Our surveys are being administered in these languages: English, Spanish, German, French, and very soon Slovak, Farsi and Cantonese.

OUTREACH: The FREE Board engaged in extensive publicity for our surveys. We gave over 100 interviews in the major radio stations focused on science issues, Ufology, the Paranormal, and other related topics. We made weekly postings in over 500 Facebook sites in the following areas: MUFON sites, numerous Ufology and Paranormal sites, New Age, Energy Healing, CE-5, Consciousness Studies,

Near Death Experiences, Out of Body Experiences, and many others. We also sent out monthly mailings to over 2,500 individuals and organizations involved in the fields of Ufology and the Paranormal.

RESPONSES: As of December 1, 2016, FREE has received the following responses to its English language surveys-- Phase 1: 2,900; Phase 2: 1,700; Phase 3: 1,070. For the Spanish surveys, we have received 650 responses for Phase 1 and over 200 responses for Phase 2. Our German Survey was recently launched and we have received over 220 responses. We are currently translating our survey to other languages including French and Mandarin. We have also received responses from over 105 countries.

OVERVIEW OF INITIAL DATA FINDINGS: Many of our summary data responses totally contradict what is being circulated in the field of Ufology. Many of the summary data are rarely or never openly discussed in the field of Ufology. What we found is that the vast majority of individuals that have had UFO related “Contact” with NHIBs view their experiences as “Positive” and they are having a multitude of paranormal experiences. These many diverse paranormal contact experiences provide support towards the hypothesis that we live in a multi-dimensional reality which suggest that humans are both physical and spiritual beings and that the NHIBs that are interacting with us might indeed be multi-dimensional beings interacting with us on multiple levels of reality-- a hypothesis that many of our FREE Ph.D. physicists and scientists call “The Quantum Hologram Theory of Consciousness”.

The following is not an “analysis” but just **a summary of the “raw data”** from Phase 1 and 2 of our English language surveys as of December 1, 2016. **This same exact data can be found, via PDF charts, in the Research Menu of our FREE Website, under the menu “Experiencer Research”,**
